

mark waller

workshop

painting sun over water at Lennox Artspace

1 day workshop for adults

Saturday 10th March 2012 - \$110.00

all skill levels welcome

9.30 - 4pm with an hour for lunch

tea, coffee & palette supplied

(paint, easel & canvas available on request for nominal fee)

You will begin to understand how light affects the appearance of water, using your own acrylics or oils & preferred surface.

Discover how luminous sunrises & glorious sunsets affect the appearance of water. Understand the illusion of transparency - free yourself from the mud!

Topics covered include:

- | How shadow affects whitewash
- | How understanding the transition from warm to cool makes a convincing painting
- | Low light does not mean low colour.

Join me in a fun learning environment as we unlock the secrets of recreating luminous, radiating light over water.
